

2021 Staffing & Budget Request

Currently, E.C.S.O. is allocated 22.5 FTEs. Current vacancies Bailiff (Casual) Records/Technical Support

2020 ORGANIZATIONAL CHART

I ask for the additional 5 positions, to include in the Northern Area Command, Southern Area Command and the addition of a Dedicated Traffic Deputy The following are the requested 2021/2022 Positions.

> 2 Patrol (Eureka) 2 Patrol (Crescent Valley) 1 Traffic Safety/Flex Deputy (County Wide) **5 Total Positions** These additional positions are explained below.

I am asking for two patrol positions in the Southern Area Command. These positions will allow us to have adequate staffing to cover the scheduling requirements to best protect the citizens and visitors of Eureka County. This will allow us to have two Deputies on shift, 12 hours a day. This staffing level will allow for Training, Vacation time, Sick time, COVID Leave, etc. to be covered, minimizing or eliminating overtime

This will also allow for the Southern Sergeant to overlap with both of the squads, which is necessary for the effective supervision, proper evaluations of employee's and increases the frontline leadership to the staff. This will allow us to have a Sergeant on duty and available 7 days a week in the county, which reduces liability for lack of supervision.

I am asking for two additional Patrol Deputies in Crescent Valley. Having four Patrol Deputies and Sergeant Evertsen in Crescent Valley allows us to provide 24 hours of service, 7 Days a week. This will decrease fatigue, burnout and call outs, which also reduces overtime. Currently, Deputies from Eureka have to go to Crescent Valley to cover for Annual leave, Sick Leave, Trainings, Etc.

This will also allow for Sergeant Evertsen to overlap with both of the squads, which is necessary for the effective supervision, proper evaluations of employee's and increases the frontline leadership to the staff. This will allow us to have a Sergeant on duty and available 7 days a week in the county, which reduces liability for lack of supervision.

Traffic Safety Unit Deputy

With 2019 being the deadliest year in Eureka County History for Fatal Traffic Crashes (7 fatalities), and in 2020, we had two fatal crashes. Both of 2020's fatal crashes were on SR278. With Zero Nevada Highway Patrol Troopers stationed in Eureka County, we are at a huge disadvantage for Traffic Safety. I feel it's important to make Traffic Safety a

priority. This Deputy would be assigned on a rotating schedule, making sure they focus on all areas of Eureka County, not just one township, road, highway, etc. This Deputy would respond as back up to calls for service when needed, and if necessary could offset the schedule on a case by case basis, which would reduce overtime, call out, etc.

The primary function of these Deputies would be Traffic Safety, conducting Traffic stops, Commercial Vehicle Enforcement (MCSA Grants Available), Hosting public education seminars, managing our Joining Forces Traffic Safety Grant.

Personnel Request Synopsis:

With the growth currently happening in Eureka County from the mining industry, as well as the influx of population, major calls for service, violent crimes and drug activity, our communities need as many boots on the ground as we can get in order to make sure our Deputies, Communities and Inmates stay as safe as possible.

Capital Project – Detention Center / ECSO Assessment

Jail Capital Project <u>\$100,000</u>

This Capital Project is for the assessment of what the true cost would be for a Jail Remodel, Update, Modification, or New Construction of the Eureka County Detention Center. The ECSO also needs a new HVAC system, as it is no longer functioning at our demanded level.

Due to the age, and deteriorating status of the Eureka County Detention Center, this process needs a comprehensive review in order to give the Commission a true view of what to forecast in the future.

I appreciate the time to present this document, and Budget Request to you. This request, like my previous requests have taken a true look at the needs of the Eureka County Sheriff's Office. As our County grows, and continues through another "Boom", we must be prepared to take care of our Communities, Citizens, Visitors and Inmates of Eureka County to the best of our ability.

> Jesse J. Watts Sheriff-Coroner
