The licensee shall have a grace period of five (5) days within which to pay the tax to the tax administrator, but in the event such tax is not paid on or before the fifteenth (15th) day of the month following the month in which it accrues, then the licensee shall pay a penalty of ten percent (10%) of the unpaid, due and delinquent tax, plus interest at a rate of one percent (1%) per month on such delinquent room tax from the date of delinquency, that is, the fifteenth (15th) day of the month, to the date of payment of such tax, but the interest shall in no event exceed thirty percent (30%) of the tax. The licensee shall also pay the cost of the collection of the tax, penalty and interest including court costs and attorney fees.

RE: John Biale Sr. Veterans Memorial Park

FWW Post 8194,

On behalf of Eureka County and the Board of County Commissioners, this letter is to declare our continued support of the local VFW Post's efforts to construct the John Biale Sr. Veterans Memorial Park in Eureka, Nevada. Please share this letter with stakeholders and/or potential contributors as you see fit.

In 2015, the Biale Family Trust offered to donate a lot, located at 151 North Main Street in Eureka, for the purposes of constructing a Veterans Memorial Park. From 2015 to present, VFW Post 8194 has provided regular updates to the Commission on progress of the construction and efforts to secure financial and in-kind donations from Eureka County and other benefactors.

Eureka County is pleased to offer continued support of this project as a means to show respect and honor to the men and women who have sacrificially given their service, and sometimes their lives, to protect our national security and the individual liberties that we enjoy as citizens of the United States. Furthermore, Eureka County recognizes the importance of ensuring that younger generations never forget the sacrifices that were made. We believe the Veterans Memorial Park will help preserve this remembrance.

We, the Eureka County Board of Commissioners, hereby encourage others to join in this worthwhile endeavor, by offering financial and/or other contributions for completion of the John Biale Sr. Veterans Memorial Park.

Project Updates

Eureka County Board of Commissioners Meeting

U.S. Department of the Interior
Bureau of Land Management

Bureau of Land Management Presenters

Greg Helseth, Branch Chief, Energy Office

Brian Buttazoni, Project Manager

NV Energy's Need.

Addresses their statewide need for energy transmission:

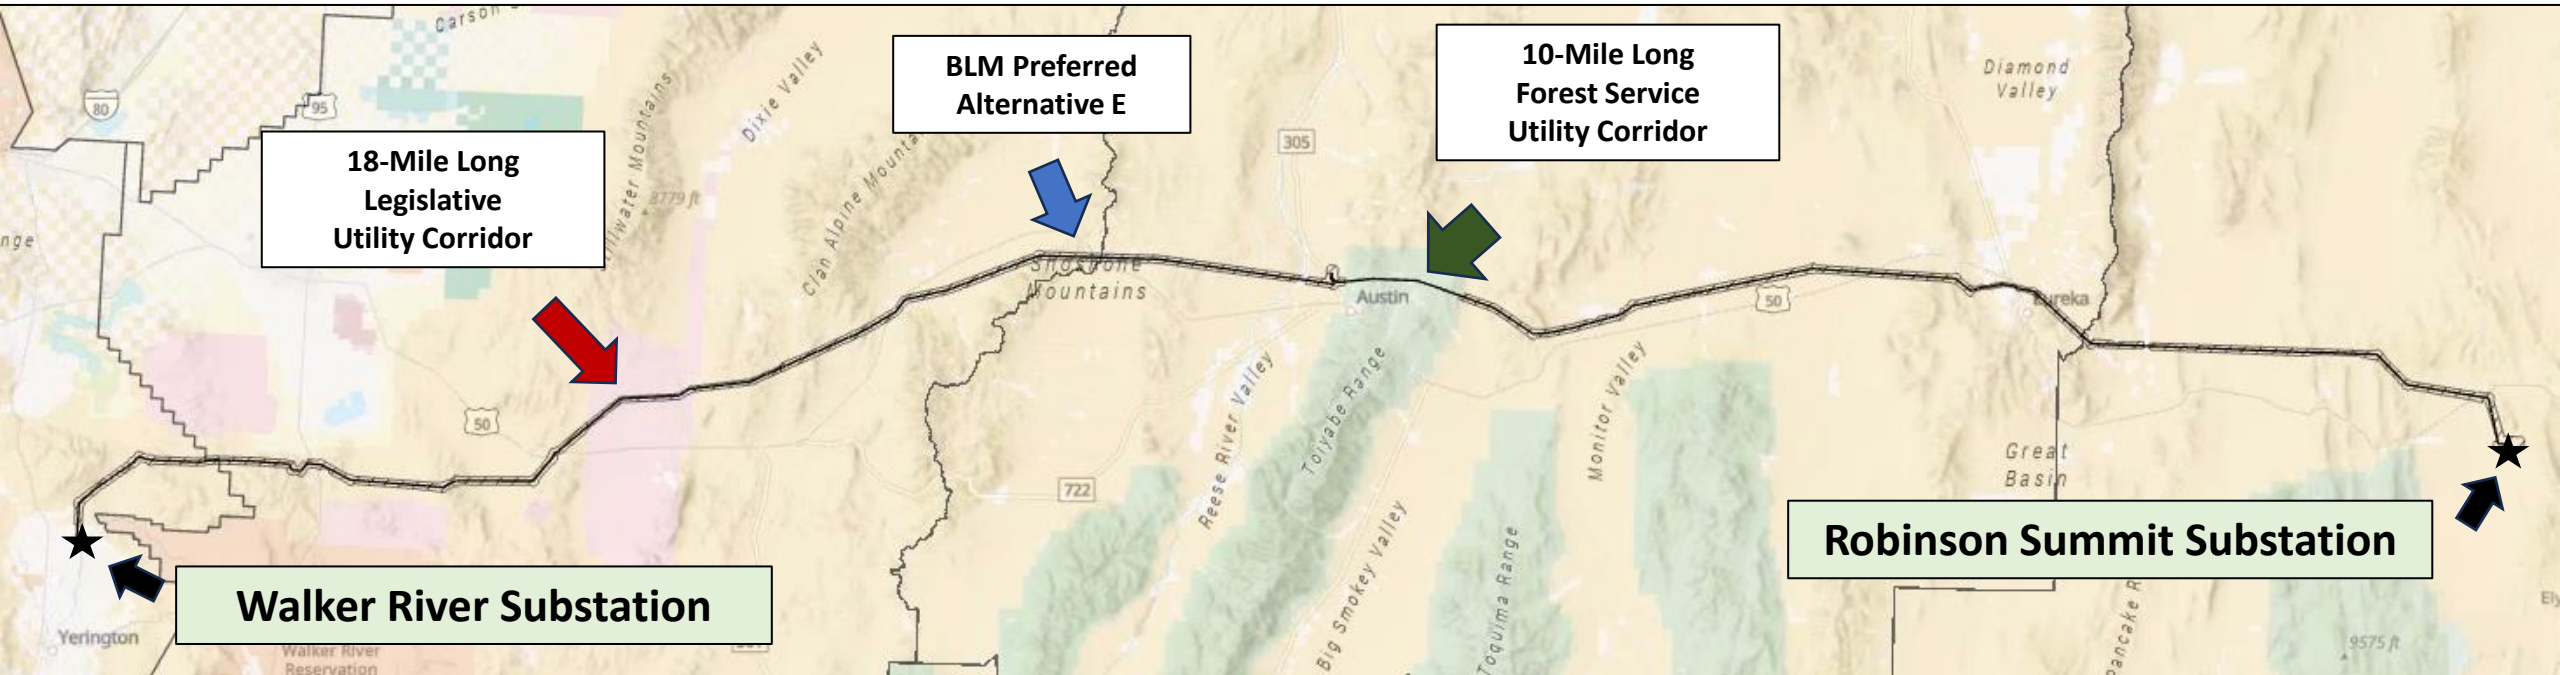

- **Redundancy.**
- **Resiliency.**
- **Reliability.**

Each of these three lines has a capacity of up to 4,000 MW.

Project Alignment and Corridors.

Approximately 95 percent of the line would be co-located with the existing 230 kV Fort Churchill-Gondor and 345 kV Falcon-Gondor transmission lines.

Alternatives

The Bureau of Land Management considered the following:

- **Four alternative route groups evaluated-**
 - Mason Valley Wildlife Management Area.
 - Recreation & Public Purposes Act parcels.
 - Desatoya Wilderness Area.
 - Humboldt-Toiyabe National Forest northern and southern alternatives.
- **Twenty alternatives/alternative segments** considered but **dismissed** due to economic, technical and/or greater environmental impact reasons, such as:
 - I-80/Northern alternatives.
 - Undergrounding.
 - Reduced voltage.

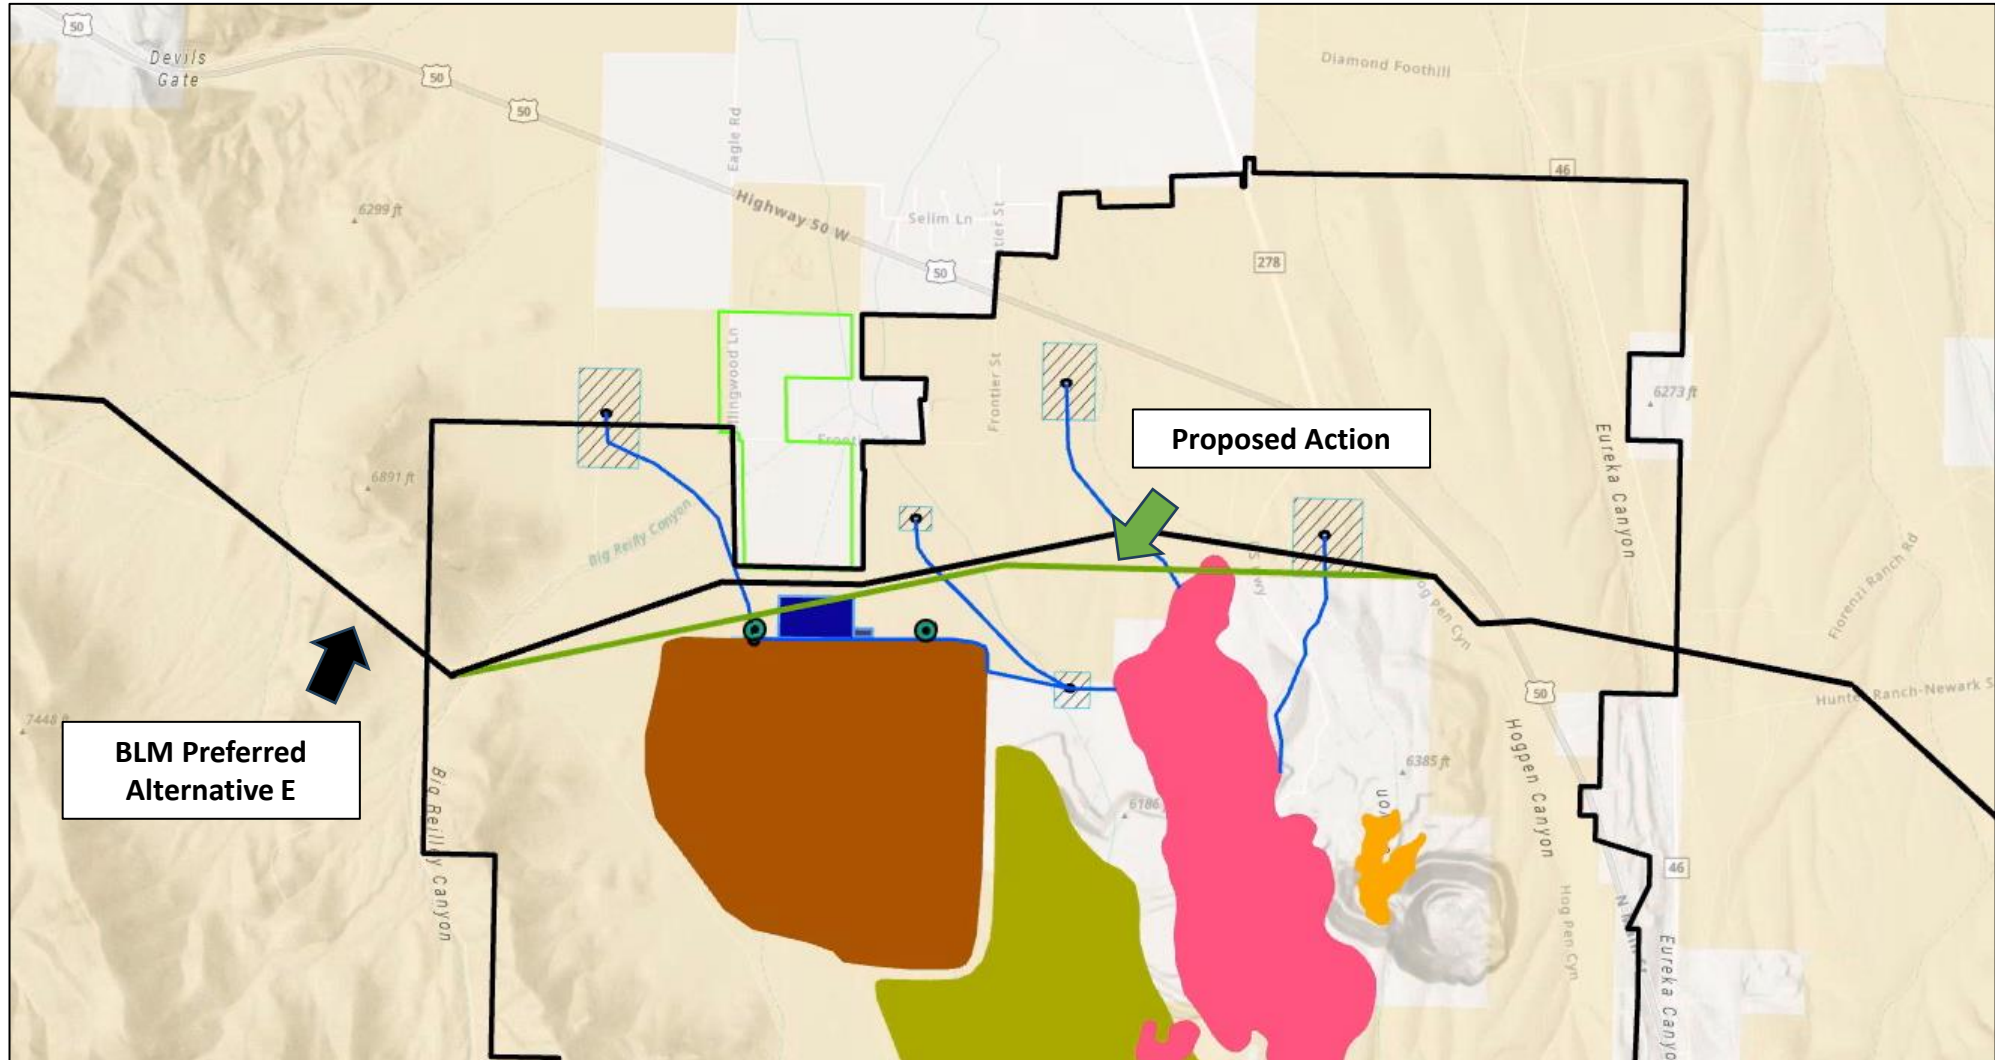

Eureka County Adjustments

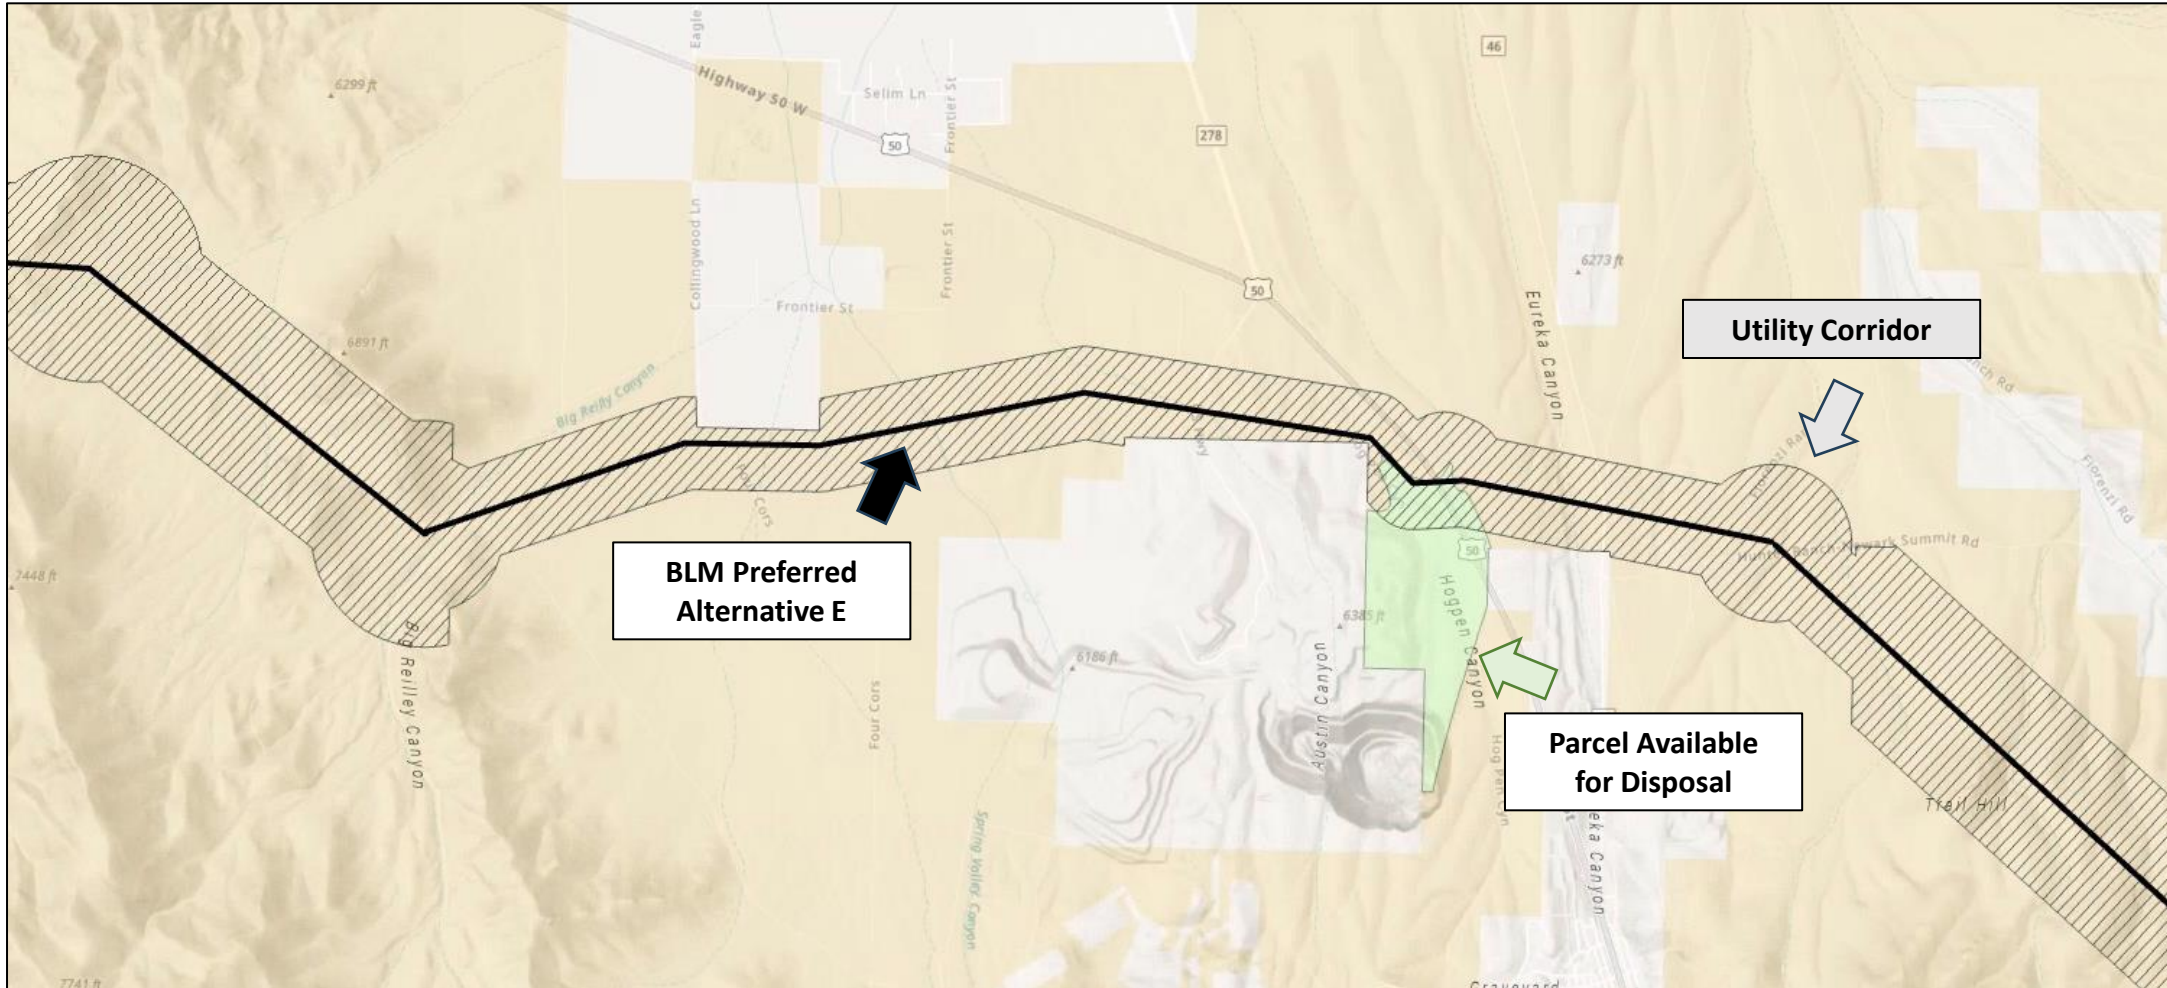

Eureka County Adjustments – Ruby Hill Mine

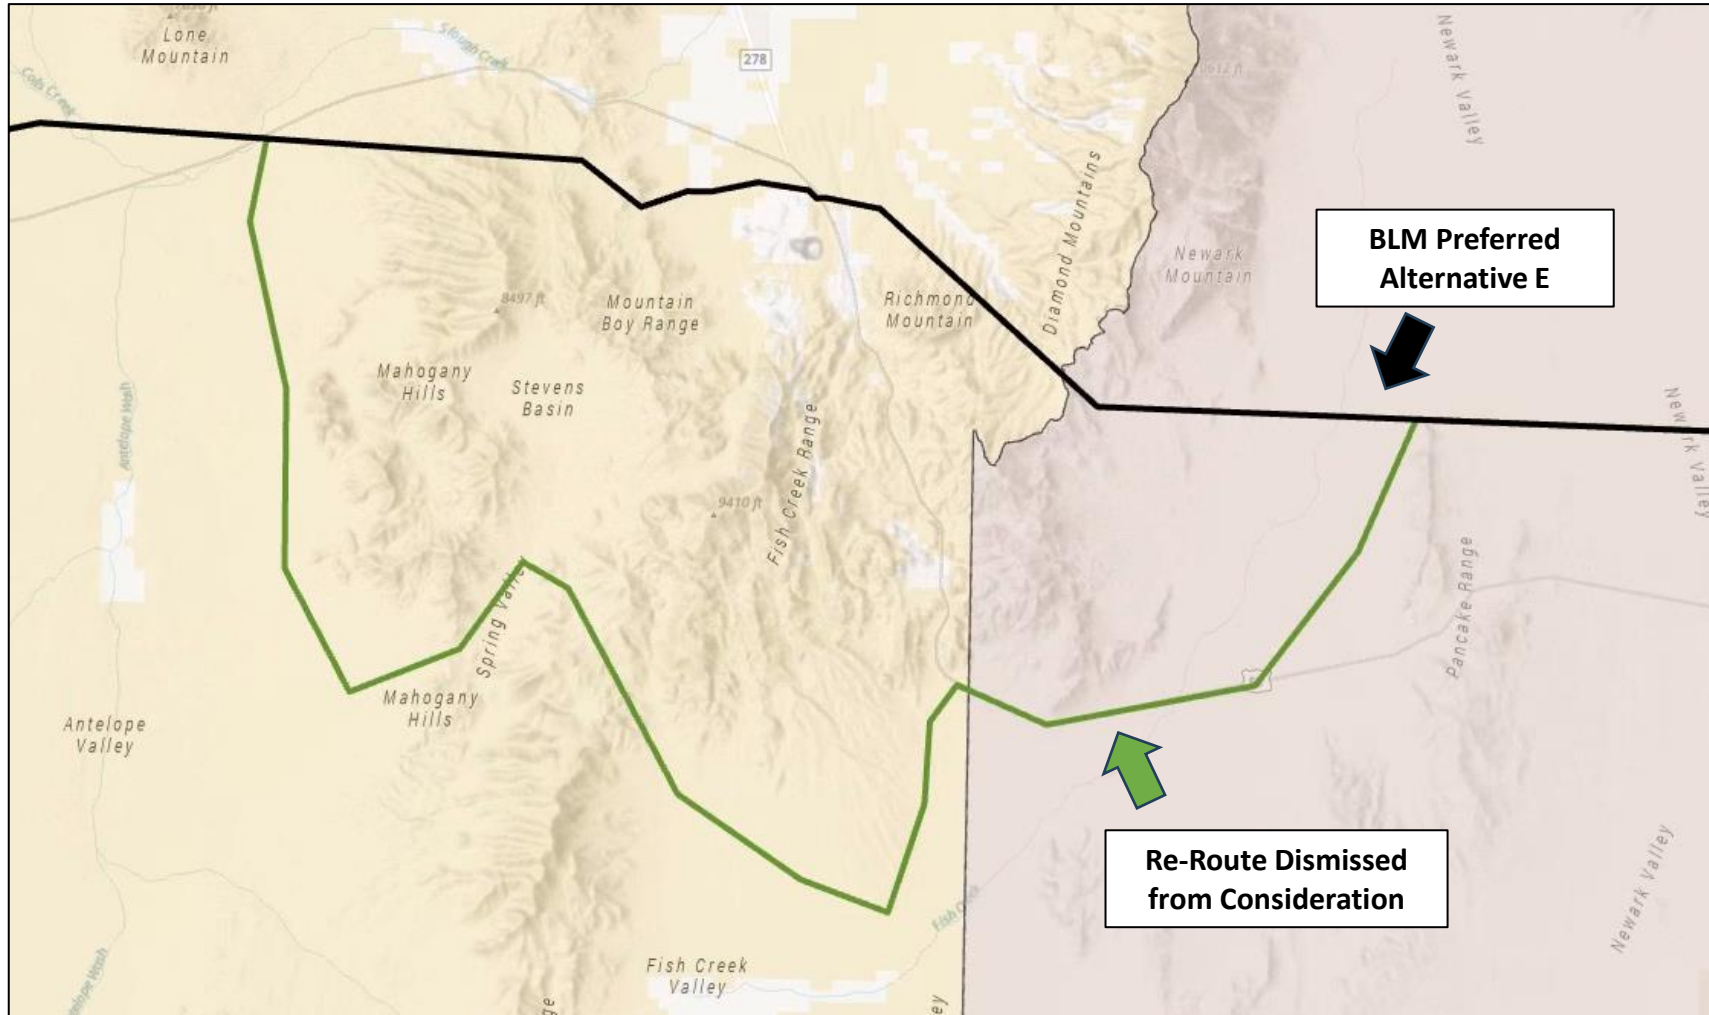

Eureka County Adjustments – Utility Corridor & Land Tenure

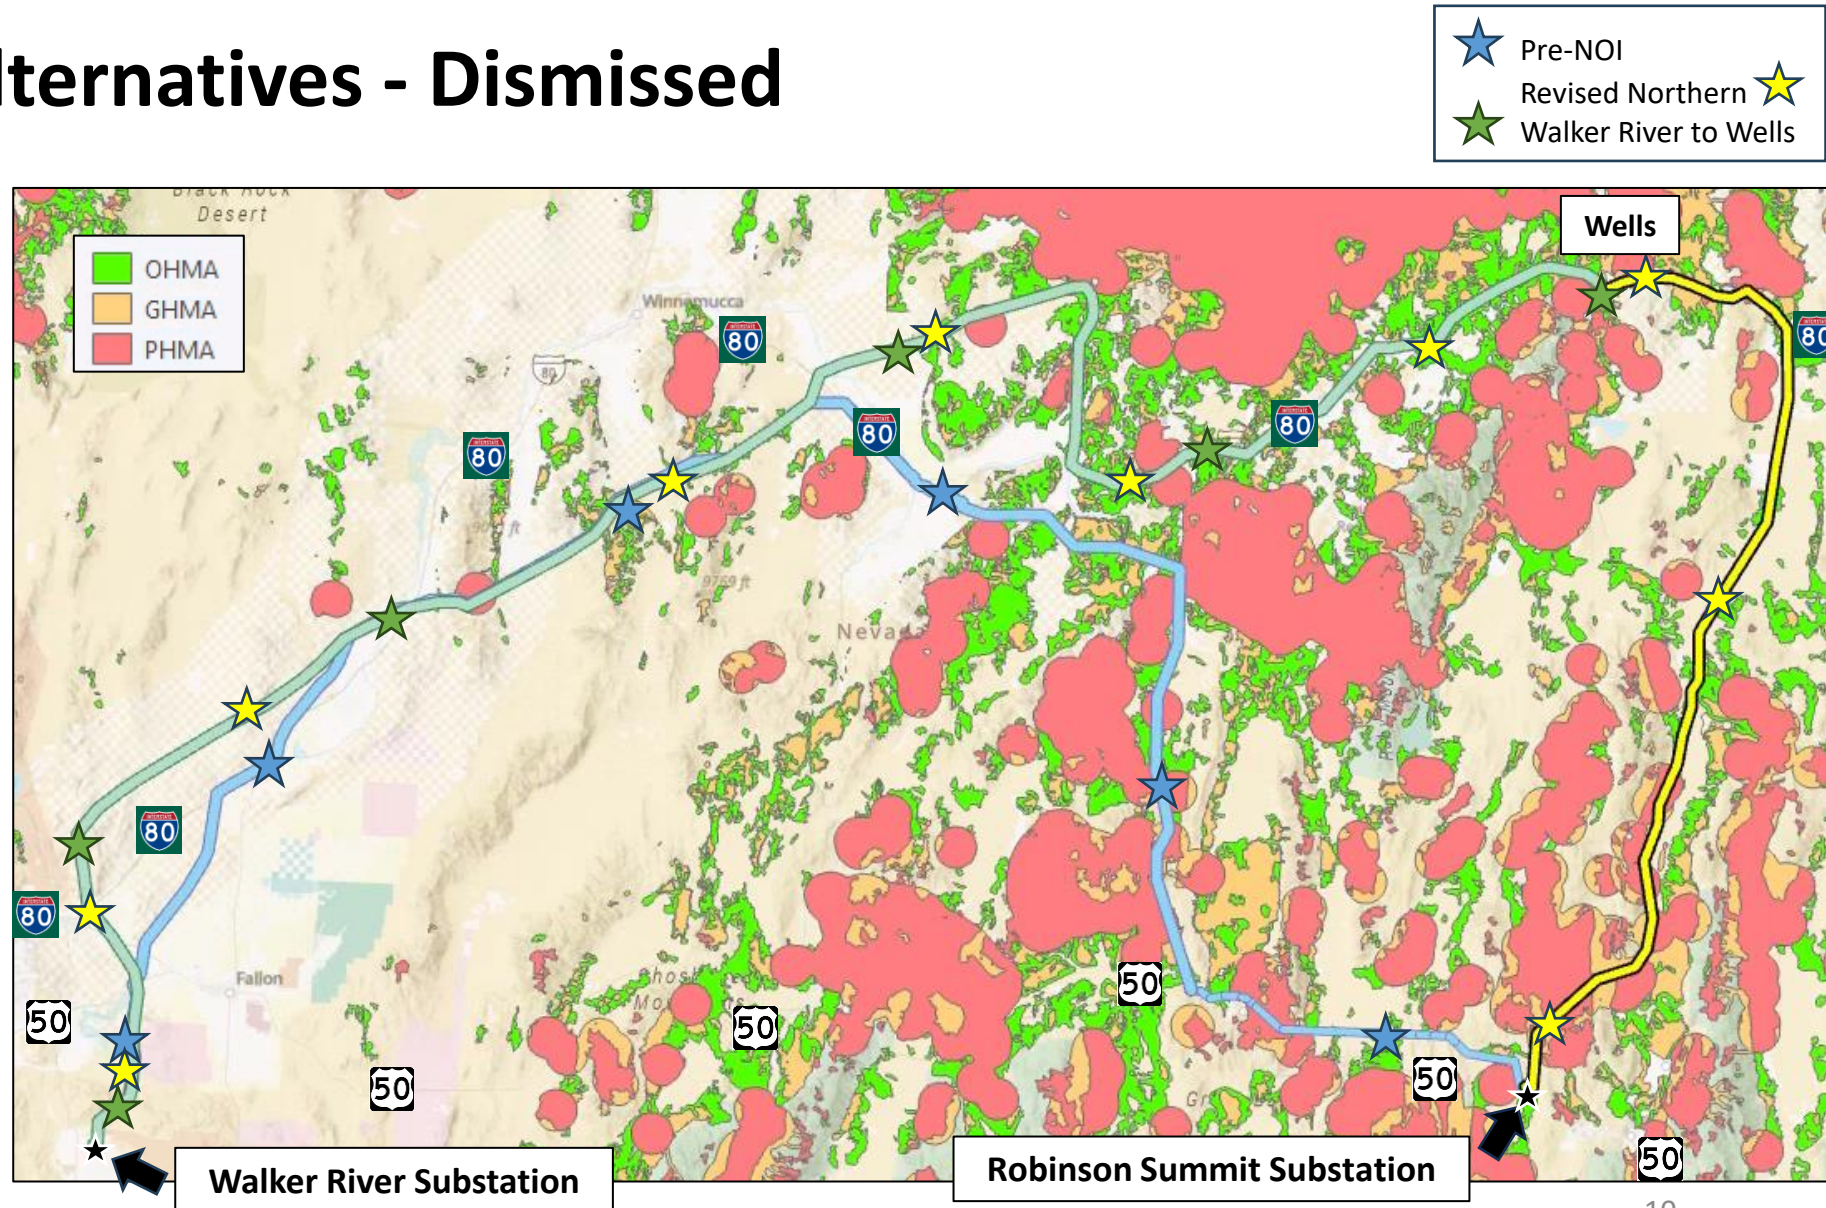

Eureka County Adjustments – Alternative Dismissed

I-80/Northern Alternatives - Dismissed

Criteria for reasonable alternatives are:

- **Economic** feasibility.
- **Technical** feasibility.
- Meets **purpose and need** and is informed by the **goals** of the applicant.

I-80/Northern Alternatives - Comparison

Activity	Preferred Alternative - Alternative E	Pre-Notice of Intent	Revised Northern	Walker River to Wells
Estimated Construction Costs	\$832 million	\$1.162 billion	\$1.616 billion	\$1.114 billion
Miles of Transmission Line	235	363	506	348
Number of Structures	1,068	1,653	2,301	1,581
Number of Leaks in 4-Mile Study Area*	58	94	78	49
Miles of GHMA/PHMA Crossed	48	70	75	21

* all lek categories.

	Pre-NOI
	Revised Northern
	Walker River to Wells

Rationale

The supplemental environmental document responds to the following:

1. The June 23, 2025 Governor’s Consistency Review response letter which stated, “...the State recommends the BLM **modify or remove the seasonal construction restrictions in greater sage-grouse habitats...**” Alternative E is in response to this letter.
2. On November 19, 2025 the BLM Washington Office (HQ-210) published the BLM Director’s Protest Resolution Report and “remanded” several protest issues back to the Nevada State Office for **consideration, clarification, further planning, or other appropriate action** to resolve the protest issues.

Rationale

The supplemental environmental document responds to the following:

3. On December 22, 2025 the Nevada State Director approved the 2025 Greater Sage-Grouse Plan Amendments which **changed the land use allocations for *major rights-of-ways*** (excluding solar and wind energy projects) as follows:
 - a. **General habitat management areas (GHMA) were re-allocated from “avoidance” to “open”.**
 - b. **Priority habitat management areas (PHMA) remain as “avoidance”, however when project satisfies one of three avoidance criteria, in this case utilizing a designated utility corridor, PHMA is re-allocated from “avoidance” to “open”.**

Director's Protest Resolution Report.

The remanded issues included:

- Alternatives.
- Visual Resources Management.
- Undue or unnecessary degradation.
- Land Use Conformance.

2025 Greater Sage-Grouse Plan Amendments Approved

Key management direction changes that affect the Greenlink North Transmission Project:

- Removal of adaptive management “hard triggers”.
- Changes in land use allocations for major rights-of-ways.

Hard Triggers under the 2015 ARMPA

Approximately 155 miles of the 235 mile line were off-limits to transmission due to adaptive management “hard triggers”, requiring the Bureau of Land Management to evaluate plan amendments, which was announced during scoping in March 2024.

Comparison of Major Habitat Management Area (HMA) Allocation Changes from 2015 to 2025 ARMPAs.

HMA Allocations	Open	Avoidance	Exclusion
GHMA	2025	2015*	
PHMA		2015*, 2025**	

* 2015: land use allocation becomes “exclusion” when outside a utility corridor and “hard trigger” has been hit and is unresolved.

** 2025: If one of the avoidance criteria can be applied, then the land use allocation is “open.”

Major Right-of-Way Avoidance Criteria #1

This criteria states the following:

“RMP designated corridors within PHMA are **open** to consideration of a new major ROW in the category of ROW for which the corridor was designated if the proposed authorization results in impacts similar to those already described in the environmental analysis to establish the corridor, including indirect disturbance to or disruption of adjacent seasonal habitats.”

Since March of 2024 the Bureau of Land Management has undertaken the evaluation of designating a utility corridor on Bureau of Land Management-administered lands between the Walker River and Robinson Summit substations. The Greenlink North Transmission Line Project would meet this criteria.

Significant Changes in Alternative E.

Significant Changes to Management Directions

1. Evaluated the **exemption** of the BLM utility corridor from all seasonal habitat restrictions in GHMA and PHMA (**winter range, breeding, brood-rearing**).
2. Evaluated the **exemption** of the BLM utility corridor from **noise limits** (10 db above ambient noise baseline).

Seasonal Habitat Restrictions Areas.

Under Alternative E, 164 miles out of 235 miles (70 percent) of this project would cross through the various categories of greater sage-grouse habitats.

Without plan amendments, the construction work period would be limited to 45-days (September 16-November 1); Alternatives B-D included a partial exemption for a 5.5 month work period (September 16-February 28); and Alternative E includes a full exemption for a 365 day work period. All in GHMA and PHMA under the 2015 and 2025 ARMPAs.

Record of Decision

The Authorized Officer will consider comments on the *significant changes* included in Alternative E in making a reasoned choice of the **Selected Alternative** and **Approved Resource Management Plan Amendments**.

- **Alternative A:** No Action, the right-of-way would not be authorized. The project would not be constructed.
- **Alternatives B-D:** Partial exemption of seasonal habitat restrictions; no exemption from noise restrictions.
- **Alternative E:** Full exemption from seasonal habitat and noise restrictions.

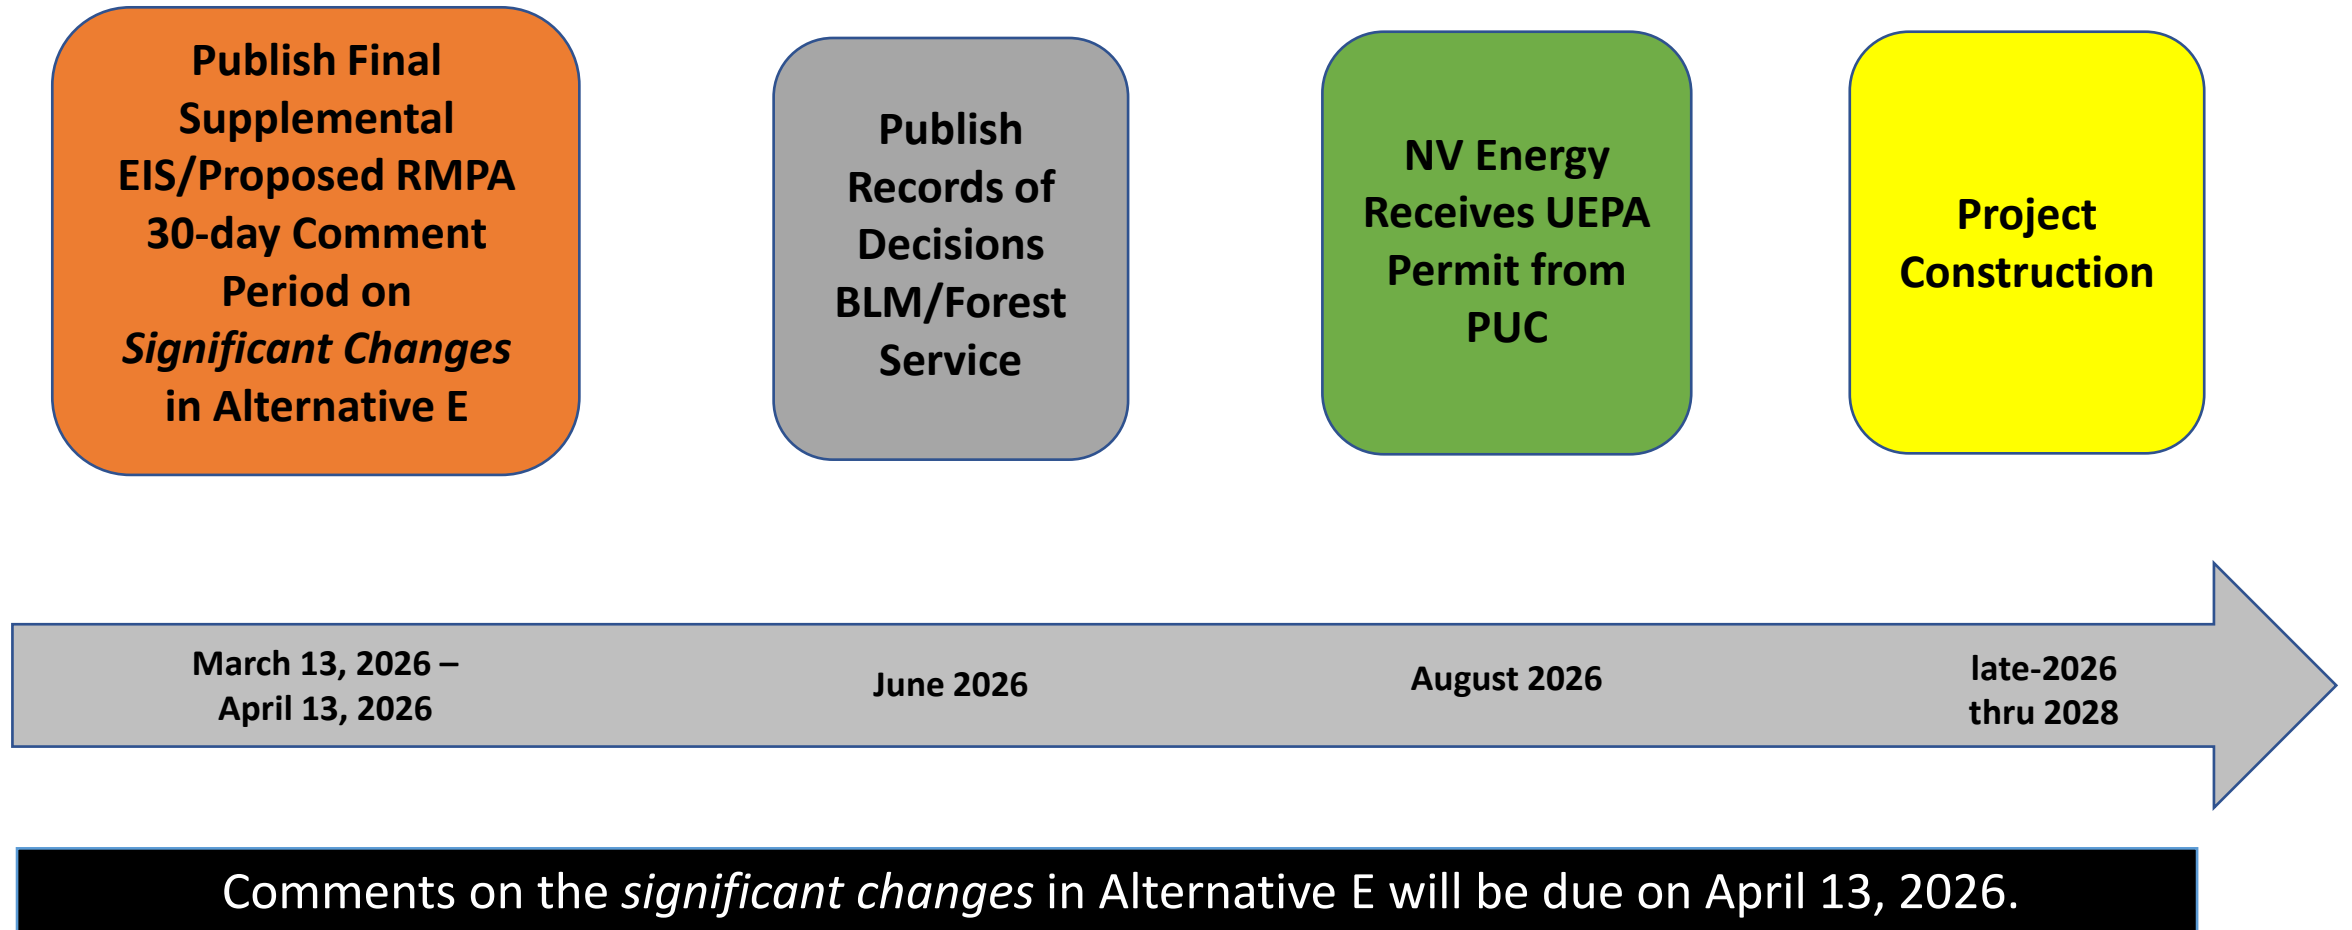

Record of Decision

See Section 1.4 Decision to be Made on the range of choices the Authorized Officer, expected to be the Nevada State Director, can make in the Record of Decision on the alternatives and plan amendments. While Alternative E has been identified as the new **Preferred Alternative**, the Authorized Officer can:

- Select one action alternative, a combination of action alternatives, or modify an action alternative, which becomes the **Selected Alternative** in the Record of Decision.
- Modify the scope of the **Approved Resource Management Plan Amendments** in the Record of Decision.

Callaghan Complex Herd Management Area Plan / Gather Plan

Dear Reader,

The Bureau of Land Management (BLM) Battle Mountain District, Mount Lewis Field Office has issued the Final Environmental Assessment (EA) and Herd Management Area Plan (HMAP) for the Callaghan Wild Horse Complex. It has been determined that implementation of the Proposed Action would not result in "significant environmental impacts", and a Finding of No Significant Impact (FONSI) has been prepared to document that determination, and a Decision Record issued providing the rationale for approving the chosen alternative.

The Final EA and HMAP for the Callaghan Complex will be available February 17th, 2026, on the BLM National NEPA Register. On that site will be the Environmental Assessment, associated appendix, Decision Record, and FONSI.

The Callaghan Complex includes the Bald Mountain, Callaghan, Hickison Summit (north of U.S. Hwy. 50) and South Shoshone Herd Management Areas (HMA). The Complex encompasses approximately 1,145,515 acres and lies entirely within Lander County, Nevada.

Long term management goals for the Callaghan Complex include management of a healthy population of wild horses through achievement and maintenance of the established AML range and continued implementation of population growth suppression. Helicopter gathers would occur as needed to continue the population growth control protocols, remove excess wild horses and to achieve or maintain the established AML. Fertility control would be applied to any mare selected for release to reduce annual population growth and reduce the number of excess wild horses that would have to be removed during future gathers.

Removals of excess wild horses could be implemented through the life of the plan to achieve the management targets, to relieve resource concerns and/or remove concentrated groups of excess wild horses both inside and outside the boundaries of the Callaghan Complex. Please refer to the EA for more details about these HMAs, AMLs, the proposed wild horse gather(s), and analysis of the potential impacts of the Proposed Action and Alternatives.

The Preliminary EA was published for public for review and comment for 30 days from August 4th, through September 3rd, 2025. BML received and reviewed approximately 124 comments.

For more information, please contact the Mount Lewis Field Office at 775-635-4000.

Sincerely,

Samuel Ault

Dear Pam Williams:

The Nevada Division of Environmental Protection (NDEP) has reviewed the *Fourth Quarter 2025 Groundwater Monitoring Report* (Report) for the referenced facility (Site) dated February 6, 2026, prepared by Alisa Prary and reviewed by Caitlin Jelle, Certified Environmental Manager (CEM) of UES Professional Solutions 30 LLC (UES) on behalf of Al Park Petroleum, Inc.

The Report summarizes the monitoring and sampling of eleven Site monitoring wells on December 8, 2025. Depth to groundwater in Site monitoring wells ranged from 98.30 to 102.34 feet below ground surface (ft bgs). The estimated groundwater flow direction was towards the southeast at a gradient of 0.007 to 0.008 feet/foot. Dissolved phase contaminants were detected in groundwater samples above the U.S. Environmental Protection Agency (EPA) Maximum Contaminant Levels (MCLs) and/or the Nevada State Action Levels (SALs) for the following analytes:

- Benzene: <1 to 19,800 micrograms per liter ($\mu\text{g/L}$); exceeded action level (5 $\mu\text{g/L}$) in 5 of 11 sampled wells.
- Toluene: <1 to 10,100 $\mu\text{g/L}$; exceeded action level (1,000 $\mu\text{g/L}$) in 2 of 11 sampled wells.
- Ethylbenzene: <1 to 1,850 $\mu\text{g/L}$; exceeded action level (700 $\mu\text{g/L}$) in 2 of 11 sampled wells.
- Xylenes: <1 to 14,800 $\mu\text{g/L}$; exceeded action level (10,000 $\mu\text{g/L}$) in 1 of 11 sampled wells.
- Methyl tert-butyl ether (MTBE): <1 to 2,200 $\mu\text{g/L}$; exceeded action level (200 $\mu\text{g/L}$) in 3 of 11 sampled wells.

Mann-Kendall trend analyses were completed for benzene and MTBE concentrations in select Site wells with elevated concentrations of these contaminants. The analyses utilized data from the past sixteen

quarterly monitoring events to assess whether rebound has occurred since the air sparge/soil vapor extraction remediation system was deactivated in February 2022.

The results of the analyses indicate that benzene concentrations exhibit an *increasing* trend in wells MW-6, MW-13A, MW-13B, and IW-4; a *probably increasing* trend in MW-10; a *probably decreasing* trend in MW-3; and *no trend* in MW-14A, MW-14B, and IW-5.

The Mann-Kendall analyses for MTBE exhibit an *increasing* trend in MW-10; a *decreasing* trend in MW-13A; and *no trend* in MW-13B.

The Report recommends continuation of the quarterly groundwater monitoring and reporting program. The NDEP **concurs** with this recommendation.

The next quarterly report is due no later than **April 28, 2026**. NDEP requests that all report documents be submitted in digital portable document format (pdf) via email, by uploading to a file transfer protocol (ftp) site, or by a link to an online document site. Please be advised that NDEP has a 100-megabyte limit for email attachments.

Other Site Activities

UES submitted a revised Work Plan for Petrofix Injections at Sam's Corner Store on July 30, 2025, detailing a scope of work to complete remedial injections at the Site updated in accordance with NDEP comments. NDEP is to be notified upon scheduling of remedial injections, and a report of findings is to be submitted under separate cover no later than **March 20, 2026**. The Report states that injections are anticipated to take place in second quarter 2026. Should you have trouble meeting this deadline, please contact the undersigned to discuss the need for additional time.

If you have any questions or concerns regarding this letter, please contact the undersigned at 775-687-9384 or mmathers@ndep.nv.gov.

Eureka County Board Of County Commissioners

Agenda Item: Classification Reallocation, Compensation Adjustment and Retroactive Pay for Lindsay Stith

Prepared by: Christina Lopez, HR Director

Date: March 2, 2026

Agenda Item Summary for Board Meeting on March 3, 2026

Background:

In March, 2024, Lindsay Stith' position was administratively changed from Justice Court Deputy Clerk to Administrative Assistant during an annual evaluation. This change was processed without the required signed job description or employee acknowledgment.

Later in 2024, during a county-wide wage study, Lindsay's compensation was assessed under the incorrect classification of Administrative Assistant rather than her proper classification as Justice Court Deputy Clerk.

Prior HR leadership and the consultant PayPointHR received information from Lindsay's head of department, Judge Rowley, advising them of the error, but corrective action was not taken.

HR Review:

Upon assuming HR leadership, I personally conducted a thorough review.

Personnel File Review, this included:

1. File Review:
2. Employee & Supervisor Coordination:
3. Cross-Departmental Verification:
4. Wage Study:
5. Retroactive Pay
 - Review and confirmed Personnel Policy 4.2.2, on criteria for retroactive pay on Reclassification/Reallocation upward.
 - Confirmed anniversary date changes for future step increases, following 12 months of the effective day of new changes
 - Retroactive pay as of July 1, 2025 (Gross pay ONLY)
 - Total Retroactive Pay: \$2,690.40
6. Employee Acknowledgement:

Employee agreed to retroactive pay calculation and timeline.

7. Internal Control:

Going forward HR will reinforce current process and require all status change documentation to be submitted along with Payroll Status Change form to HR.

8. Recommendation for Board Approval:

- Approve reallocation to adjust classification range for Justice Court Deputy Clerk from E07 to E08
- Approve wage adjustment for Lindsay Stith to align with updated job classification from wage range EO7 to EO8.
- Approve retroactive pay effective July 1, 2025, reflecting the 5% wage increase.
- Approve implementation of the corrected wage beginning next pay period.
